

Michael Bernardo

My goal is to bring a new, fresh approach to the challenges facing the OKF. Building five Bernardo Karate locations around the London area, I have experience in developing the “team work” needed for an organization to grow. The OKF has an abundance of talented Senseis, competitors, coaches and schools. The goal is to utilize this pool of talent to allow the OKF to grow stronger.

I feel a leadership board needs to be comprised of people with various backgrounds. Injecting new ideas or a fresh perspective can only help with growth. I hope with my background in business, to help the OKF always put forward programs that meet the customer’s needs. We offer a service, participation is not mandatory; therefore we must always try and give our members the best in customer service possible.

I take nothing for granted in business, hard work is always the first ingredient for success. If elected I will work hard to help the OKF expand and grow across Ontario.
